## Revolutionizing Patient Care

The world's first completely external catheter system designed to comfortably empty the bladder for both men and women

Ur24T®

The first external catheter system actively emptying  
the bladder for men and women without any discomfort

## Ur24T Products

Designed to be Comfortable and Conform to the Human Anatomy

### TrueClr M / M +

*(Male Catheters)*

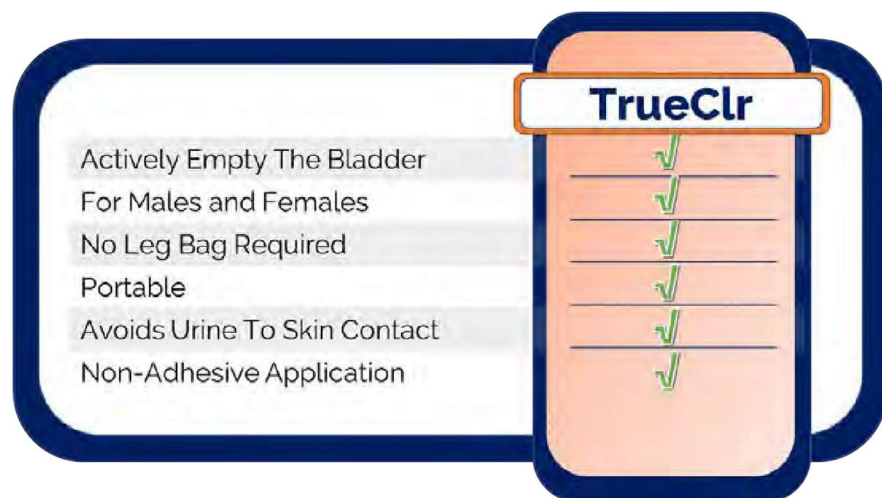

The TrueClr M / M+ is applied to the penis and will stay in place without adhesive

STEP INTO THE FUTURE OF EXTERNAL CATHETER SYSTEMS  
and leave traditional internal catheters behind

### TrueClr F

*(Female Catheter)*

The TrueClr F is applied over the urethral opening and stays  
in place using light suction
